

# RAAGUL S

Full Stack Developer

## ABOUT

Full Stack Developer with 1+ years of experience in designing and deploying scalable web apps. Skilled in Python, JavaScript, Django, Java and React. Proficient in Agile, Scrum, RESTful APIs, and front end/back-end optimization. Team-oriented, focused on delivering efficient solutions to complex problems.

## WORK EXPERIENCE

### Gooroo Mobility India Private Limited, Chennai

Jr. Full Stack Developer Apr 2023 – Present

#### GM Scan App – Multi-Functional Scanning Application

Developed in Android Studio using Java

- Designed and implemented a user-friendly Android application with four key scanning features, enhancing digital document and media management
- ID Scan: Extracted user details from identity cards using OCR technology for fast and accurate data capture
- Book Scan: Scanned ISBN barcodes to retrieve detailed book information from online databases
- Document Scan: Enabled scanning and text extraction from documents, improving document digitization workflows
- Business Card Scan: Captured and structured contact information from business cards, simplifying contact management
- Focused on intuitive UI/UX design to ensure seamless user experience across all features

#### Social Networking Platform:

Built with Python, Django, and RESTful APIs

- Developed a full-stack social media application enabling users to register, log in, and manage their profiles
- Implemented secure user authentication and session management using Django's built-in features
- Created photo upload and sharing functionality, allowing users to post and view content in a dynamic feed
- Designed RESTful APIs for smooth backend interactions and efficient server responses
- Integrated database models and media handling features to ensure scalable content storage and delivery
